

| | | | |
|--|---|--|---|
| Name | : | Dr. Lalita |  |
| Designation | : | Assistant Professor | |
| Contact Address | : | Division of Processing and Food Engineering Faculty of Agricultural Engineering SKUAST-J Main Campus, Chatha, Jammu-180009 (J & K) | |
| E mail | : | lalitapfe@gmail.com | |
| Mobile | : | 8909165070 | |
| Professional Experience | : | | |
| Area of Specialization | : | Processing and Food Engineering | |
| Research interest | : | <ul style="list-style-type: none"> • Drying • AI • Packaging | |
| Total no. of publications (referred journal) | : | 06 | |
| Selected publications (best four) | : | <p>I. Lalita, Giri, S. K., Mohapatra, D., Tripathi, M. K., Kate, A., & Wahid, A. Optimization of process parameters of refractance window drying for aonla slices and comparison with other drying techniques. <i>Journal of the Science of Food and Agriculture</i>.</p> <p>II. Pal, Lalita., Giri, S. K., Mohapatra, D., Tripathi, M. K., & Kate, A. (2023). Mass transfer parameters and quality characteristics of aonla slices under refractance window drying. <i>Drying Technology</i>, 42 (3): 492-505.</p> <p>III. Lalita, Mahesh, K., & Alam, M. S. (2024). Effect of Spray Drying Parameters on Physicochemical Properties of Sand Pear (<i>Pyrus pyrifolia</i> L.) Powder: EFFECT OF SPRAY DRYING ON PHYSICOCHEMICAL PROPERTIES OF SAND PEAR POWDER. <i>Journal of Scientific & Industrial Research (JSIR)</i>, 83(6), 598-606.</p> <p>IV. Lalita, Giri, S. K. & Wahid, A. (2023). Refractance Window Drying vis-à-vis Osmotic and Hot Air Drying of Indian Gooseberry based: Comparison of Quality Attribute and Microstructural Changes. <i>Biological Forum – An International Journal</i>, 15(5): 17-20.</p> <p>V. Wahid, A., Giri, S. K., Kate, A., Tripathi, M. K., & Lalita. (2023). Development and evaluation of a vacuum impregnation system for enhancement of biochemical properties of food materials. <i>Journal of Food Science and Technology</i>, 1-11.</p> <p>VI. Shende, D., Datta, A. K., Nandi, S. & Lalita (2023). Refractance Window Drying Of Aonla Pulp To Produce Powder. <i>Journal of Survey in Fisheries Sciences</i>, 10(1S), 6933-6941.</p> | |
