**Procedure/guidelines/Scheme for award of Job/Work Contract,
Procurement of services through consultants and outsourcing in SKUAST-J.**

1. Outsourcing will be possible only in following four alternative method:

Method I: where job / work to be performed or services to be rendered, can be defined - in quantitative and qualitative terms - and output / outcome is measurable e.g. gardening service, cleaning service, security services, house-keeping service, etc., work may be awarded on contract, as 'work contract', through tendering process, in manner indicated in para 2.

Method II: where it is not feasible to precisely define work, in manner, required for a 'work Contract, ex-service man may be engaged on bilateral contract basis, in manner indicated in para 3.

Method-III: private individuals other than ex-servicemen can also be engaged on bi-lateral contract basis, in certain situations and for cetin technical posts, in matter indicated in para 4.

Method IV: Consultants may be engaged in manner indicated in para 5.

2. Job / work contract / Outsourcing of services (Method I)

Following steps be taken to award job/work contract or outsource these services:

2.1. Identification of likely contracts

The institutes must prepare list of likely and potential contractors, on basis of formal and informal enquiries from other organizations invoked in similar activities or through other means.

2.2 Preparation of tender enquiry

Institutes should prepare tender enquiries containing (i) details of job / work / service to be performed by contractor (ii) facilities and inputs which will be provided to contractor by Institute (iii) eligibility and qualification criteria to be met by contractor for performing required job / work / services; and (iv) statutory and contractual obligations to be complied with by contractor and tender enquiry should clearly state that contractor will have to abide by relevant labour and other laws of the land.

2.3 Invitation of bids

(i) **For estimated value of work / job / service upto Rs. 10 lakhs**

Limited tender enquiry may be issued to such of the likely contractors from list of contractors maintains by Institute who are eligible and capable a prima facie. Number of contractors identified for issuing limited tender enquiry should not be less than 6.

(ii) **For estimated value of job / work / services above Rs. 10 lakhs**

Institutes should issue public tender, in at least one popular and largely circulated newspaper and on website of Institute.

2.4 Evaluation of bids

The Institute should evaluate, segregate, rank responsive bids and select successful bidder for placement of contract. Bids received after specified date and 'time of receipt should not be considered, Should it become necessary, in an exceptional situation, to award job / work contract or outsource services to specifically chosen contractor, Director may do so in consultation with Finance and Accounts Officer incharge of the Institute. In such cases detailed justification, circumstances leading to award of contract b/ Choice and special interest / purpose, served by such award should form part of the proposal.

2.5 Bid Security

Safeguard from bidders, against withdrawal or alterations in bids during bid validity period, bid security (also known as earnest money), must be obtained. Amount of bid security may be decided by Director and should ordinarily range between 5% to 10% of estimated value of contract. Exact amount of bid security should be determined, accordingly, by Director and indicated in bid document.

2.6 Performance security

To ensure specific performance of contracts, performance security must be obtained from successful bidder awarded the contract. Amount of performance security will be decided by Director of the Institute and should ordinarily range between 5% to 10%, of estimated value of the contract. The exact amount of performance security should be determined and indicated in bid document. Performance security should remain valid for period of 60 days beyond date of completion of all statutory and contractual obligations of supplier. Bid security will be refunded to successful bidder on receipt of performance security.

2.7 **Liquidated damages**

Contract should, inter-alia mention amount that will be levied as liquidated damages. The amount will be decided by Director of the Institute end indicated in contras.

2.8 **Specimen Agreement**

All Institutes must prepare, agreement to be entered into with contractor / service provider and get it vetted by any panel lawyers of the institute. Illustrative specimen agreement is Annexure –II.

2.9 **Management of contracts**

(i) General Principles

Following general principles should be observed, while entering into a contract:

- terms of contract must be precise, definite and without ambiguities.
- terms should not involve, .uncertain or indefinite liability.
- Contract should specifically provide that contractor will abide by relevant labour laws and will indemnify ICAR / institute of any liability, on this account. Contractor's default in observance of relevant labour laws scrupulously, will amount to failure of specific performance of contract, with attendant consequences as per contras act.
- No work of any kind will be commenced or services obtained, without execution of agreement.
- Contract document should be executed within 21 days of issue of letter of acceptance. Non- fulfilment of this requirement will be sufficient, for annulment of award or forfeiture of bid security.

(ii) Monitoring of the contract

- There is popular perception that quality of output and efficiency of service rendered by job / work contractors or outsourcing agencies employed by public systems is inferior In comparison to work / job executed by private sector. Proper designing of agreements clearly delineating deliverables and providing penalty clauses for lack of specific performance, will result in delivery of work/job of optimum quality.
- It is necessary that Institute should be invoked in conduct of contract, throughout, end should have identified officer/s for monitoring of works/contracts.

- The contractor should be held accountable for any deficiency in services. Liquidated damages must be recovered, from amounts payable, to contractors for deficiency in performance or services.
- Since labour required for specific performance of contract is employed by contractor and not by Institute, care should be taken by, all concerned, that no contractor or individual working for contractor, is allowed to create evidence or paper trail to indicate employer-employee relationship between Institute and labour employed by contractor. For example, institute is not supposed to maintain attendance register of contractor labour or grant them leave, or permission of any sort. This is so because performance of contract is output related, not person specific. If output in terms of maintenance of garden, or cleanliness of rooms, is found deficient, then show cause notice and subsequent action, for non-performance or under - performance of contract, should be taken. Panel lawyer of institute specializing in labour laws may be consulted as and when required.
- At the time of making payment or part payment (monthly basis or otherwise) it may be ensured that contractor has discharged its labour related statutory obligations for period for which bill has been raised.

3. Procurement of services by contractual engagement of ex-serviceman (Method-II)

A situation may arise when it is not possible to define 'work contract'/ 'service contract', in such situations, institute may hire individuals directly on bi-lateral contract; however such individuals will have to be ex-servicemen. Particulars of ex-servicemen may be obtained from District Soldier Board. Terms and conditions in standard contract document is attached as Annexure III with this letter, which is an Agreement that should be signed with each individual. Clarificatory instructions regarding matters which need to be decided for each individual contracted service process, have been appropriately added in standard contract document, to facilitate decision by contracting authorities. It may be ensured that 1. R. No./ unique identification number by which a serviceman is identified is mentioned in the agreement. This number may also be indicated in all payment bills, without which Finance and Accounts Officer shall not allow / make payment.

4. Procurement of services by contractual engagement of individuals other than ex-serviceman (Method-III)

In specific situations where ex-servicemen are / may not be available or may not be suitable, for job, such as lab technicians, research assistant etc. other individuals can also be hired directly on bi-lateral contract. In such cases, authorize unit head as per the statutory provisions of SKUAS-J for engagement of bilateral laborers, will have to first record a speaking order on why proposed job cannot be carried out by a 'service contract' or through an ex-serviceman, and show proof that attempts to find ex-serviceman such jobs / have not elicited. Terms and conditions for Standard contract document are attached as Annexure III with this letter, which is agreement that should be signed with each individual. Clarificatory instructions on matters which need to be decided for each individual contracted service process have appropriately been added in standard contract document and facilitate decision by contracting authorities. It may be ensured that process of identification of individuals for entering into direct contract to deliver specific services should be transparent, fair and non-discriminatory and Individuals selected are in good health bear good moral character with acceptable antecedents and fully qualified to render required services. **Such contracts shall be time / period specific, project specific, place / location specific and non-extendable in nature.**

5. Procurement of services through consultants (Method IV)

The institutes may hire external professionals, consultancy firms or consultants for specific job which is well defined in terms of content and time frame for its completion in following manner;

5.1 Identification of work / services required to be performed by consultants

Engagements of consultants may be resorted to in situations requiring high quality service for which the concerned institute does not have requisite expertise. Approval of Director should be obtained for engaging consultant(s).

5.2 Preparation of the scope of the required work/service

The institute should prepare in simple and concise language, requirement, objective and scope of assignment. Eligibility and pre-qualification criteria, to be met by consultants, should also be clearly identified at this stage.

5.3 Estimating reasonable expenditure

Institutes proposing to engage consultants should estimate reasonable expenditure, for same by ascertaining prevalent market conditions and consulting other organizations engaged in similar activities.

5.4 Identification of likely sources

- (i) When estimated cost of work or service is upto Rs. 10 lakhs, list of potential consultants may be prepared on basis of formal or informal enquiries from other organizations involved in similar activities.
- (ii) Where estimated cost of work / service is above Rs. 10 lakhs, list of potential consultants in manner indicated above, an enquiry for seeking 'expression of interest' from consultants should be published in one national daily, at least, and hoisted on institute website. The website address should also be given in advertisement.

5.5 Shortlisting of consultants

Consultants meeting requirements of job/work should be shortlisted for further consideration. Number of shortlisted consultants should not be less than 3. Consultancy assignments can be given to only established consultancy firms or other similar institutions and retired employees of Government /University.

5.6 Preparation of terms of reference (TOR)

TOR should include :

- Precise statement of objectives;
- Outline of the tasks to be carried out;
- Schedule for completion of tasks
- The support or input to be provided by the institute to facilitate the consultancy

The final outputs that will be required of the consultant

5.7 Preparation and issue of request for proposal (RFP)

RFP is a document, to be used by institute for obtaining offers from consultants for required work / service. RFP should be issued to shortlisted consultants, to seek technical and financial proposals from them. RFP should contain;

- A letter of Invitation
- Information to Consultants regarding the procedure for submission of proposal
- Terms of reference
- Eligibility and pre-qualification criteria in case the same has not been ascertained through Enquiry for Expression of interest

- List of key position whose CV and experience would be evaluated
- Bid evaluation criteria and selection procedure
- Standard formats for technical and financial proposal
- Proposed contract terms
- Procedure proposed to be followed for mid-term review of the progress of the work and review of the final draft report.

5.8 Receipt and opening of proposals

Proposal should ordinarily be asked for from consultants in two 'two bid' system with technical and financial bids sealed separately. Bidders should keep these two sealed envelope in a bigger envelope, duly sealed, and submit the same to the institute by specified date and time at specified place. Technical bids should be opened first at specified date, time and place. Late bid should not be considered.

5.9 Evaluation of technical bids

Technical bids should be analyzed and evaluated by committee constituted by the institute. This committee will record reasons for acceptance and rejection of technical proposal in details after analysis and evaluation of technical bids.

5.10 Evaluation of financial bids of technically qualified bidders

The institute will open financial bids of only bidders, who are declared technically qualified, in the manner indicated above. These successful technical and financial bids may be further analyzed or evaluated and ranked, to select successful bidder for award of consultancy contract.

5.11 Consultants by nomination

In special circumstances, it may become necessary to select a particular consultant, where adequate justification is available for such single source selection. Full justification for single source selection should be recorded and approval of Director obtained before resorting to such single source selection.

5.12 Monitoring the contract

The institute should be involved throughout in contract of consultancy by continuously monitoring a performance of consultant(s) so that out put of consultancy is in accordance with institute's objective.

6. The market of goods / services / consultants keeps evolving according to emerging business opportunities by its very nature. With some effort at vendor development by concerned institutes, there may be no difficulty in outsourcing work even at remote locations in accordance with these instructions. Doubts, if any, in the course of implementation outsources of services, may be referred to Hqrs. for clarification.
