5th J&K Agriculture Science Congress

October 14-16, 2019

Climate Change Management for Sustainable Agriculture, Livestock Farming and Ecological Development

Organized by: Sher-e-Kashmir University of Agricultural Sciences & Technology of Jammu
Chatha, Jammu, J&K 180009

Sponsored by: J&K Science Technology and Innovation Council, Govt. of J&K, Science & Technology Department

Patron
Dr. K.S. Risam
Vice-Chancellor
SKUAST-Jammu

Co-Patron
Dr. Nazeer Ahmad
Vice-Chancellor
SKUAST-Kashmir

Convenor/Organizing Secretary
Dr. Jag Paul Sharma, Director Research
SKUAST-Jammu
ABOUT THE CONGRESS

Agriculture is the back bone of the state economy with a large number of people, directly or indirectly, dependent on it. About 75 per cent of the total cultivable land in the Jammu division and about 60 per cent in Kashmir Division is rainfed, which makes agriculture productivity unstable and vulnerable to climatic aberrations and uncertainties. Climate change globally is no more a myth but a hard fact and is going to have a significant impact on agriculture, horticulture, animal husbandry, fisheries and observed other marine life. Substantial reductions in precipitation are expected in the mid-latitudes where agriculture sector is already precarious and often dependent on rain water. Rainfall is likely to decline by 5 to 10% over southern parts of India whereas 10 to 20% increase is likely over other regions. Consequently, Indian agriculture appears to be at the cross road with respect to climate change. Three days Agriculture Congress to attract participants from all over the country to have a marathon interaction and discussion on socio-economic and eco-biological consequences of climate change with focus on agricultural stability, livestock productivity and ecology. Three days deliberations are expected to deliver concrete recommendations on strategies for mitigation of climate extremities and climate change management for sustainable development.

FOCAL THEME AND SUB-THEMES OF THE CONGRESS

FOCAL THEME: Climate Change Management for Sustainable Agriculture, Livestock and Ecological Development

SUBTHEMES:
- Climate resilience and Associated Challenges.
- Sustainable Livestock farming in era of climate change
- Eco-biological and Socio-economic consequences of Climate Change.
- Protected cultivation and vertical farming
- Natural Resources Management to mitigate climate change
- Technological innovations to mitigate impact of Climate Change.

CONGRESS FEATURES

- Key note lectures by eminent scientists
- Technical sessions
- Poster sessions.
- Farmer-scientist interaction session
- Exhibition of agro-technologies
- Best Paper Awards

Oral presentation should not exceed 8-10 minutes duration. Presentations should preferably be prepared on MS PowerPoint.

POSTER PRESENTATION: Size of the poster should not exceed 1.00 m (width) x 1.20m (height). The text and other contents of the poster should be fairly legible from a distance. Each poster must be placed on the assigned space in the poster hall on scheduled poster presentation date and time.

IMPORTANT DATES

Submission of Abstract/ chapters for souvenir & full length papers: September 30, 2019
Registration (without late fee): October 01, 2019
Date of Congress: October 14-16, 2019
ABOUT THE VENUE

Sher-e-Kashmir University of Agricultural Sciences & Technology of Jammu came into existence on 20th September 1999. The university is mandated to address the basic, strategic and applied research related to enhanced production in agriculture and allied sectors (livestock health improvement and quality based products). SKUAST-Jammu is striving to achieve high standards of excellence in education, research and extension for the betterment of farming community of the region. The University has head quarter at Chatha, about 7 km away from Jammu city.

Jammu, the “City of Temples” is located in the lap of Trikuta hills of Shivalik ranges of lower Himalaya at 1000 feet above mean sea level. Having so many sights of worth seeing, anyone looking to take a break and relax for some time, this city has everything that one needs. About 50 km from Jammu is located the town Katra or Katra Vaishno devi. Vaishno Devi is one of the most visited sacred places among devotees who throng the temple from far and wide. At a short distance from Jammu, 70 km is the famous tourist place of Patnitop. With all its beauty as a hill station, it is a charming plateau at 2,024 m above msl. The meadow is surrounded by dense woods and greenery of pines. Raghunath Temple is another famous and old temple is located at Jammu city. Jammu also houses Bave Wali Mata, a very famous temple of Goddess Kali along with Bagh-e-Bahu, a very beautiful terrace garden. The weather of Jammu during October will be pleasant.
