## Women Empowerment through Agro- Entrepreneurship for Livelihood Security (WE - 2019)

**February 07 - 08, 2019**

### ABOUT THE CONFERENCE

Empowering women through Agro-entrepreneurship means equipping women with the knowledge and skill of agricultural enterprises which increase their self confidence to participate fully in agricultural socio-economic development process. Agro-entrepreneurships will provide better quality of material and life through sustainable livelihoods owned and managed by women. Their financial dependence on male will be reduced by making them a part of decision making process and financially independent.

It has been very well acknowledged that women entrepreneurs are more transparent, sincere and honest in their approach. This way the marketing and branding of the products through women self help groups is more acceptable, remunerating and has more scope to flourish and grow.

There are various emerging technical areas where women participation as entrepreneur has social, economical and ecological importance namely commercial production of bio-pesticides and bio-fertilizers, commercial horticulture nursery, generation of tissue culture plants, marketing of agro-inputs and entrepreneurship in organic agriculture etc.

### ABOUT SIDAVES

A non-profit social and scientific organization encompassing diverse areas of socio-economic growth of human society through excellence in science, academics and ecology development with its core contention of Vasudae Katumbakam Parma Sukham (the whole world is a family and SIDAVES strives for its sustainable development). It thus, strongly believes in prosperous social and environment growth of human commune on the planet mother earth. Spearheading through the international issue of ecological crisis because of climate change and global warming, SIDAVES with its technocrats and applied knowledge bank is highly competitive body to address the arising problems of food security, hunger, mal-nutrition, unemployment, gender inequality and social unjust across regions of the world. Hence anybody who believes in wholesome development of human society can become the member of the society. SIDAVES family is a commune of more than 200 members from different walks of life who are committed to contribute to the welfare of biome on the planet mother earth
