**Programme Coordinator**  
Village Visit Programme
GUIDELINES TO BE FOLLOWED DURING VILLAGE VISIT PROGRAMME

1. The Village Visit Programme will be conducted fortnightly with follow up support to make it more effective.
2. Trainings of farmers will be conducted on already proven technologies and it will be based on the need assessed through previous visits of the team.
3. The team scientist will demonstrate seed treatment technique before the farmers. For the purpose, the team will be equipped with necessary kits.
4. The veterinary scientist will also be equipped with necessary tools and kits for demonstrating proven technologies in the field of veterinary sciences.
5. The team coordinator will be provided with audio-visual aids for staging audio-visual show in the village for greater impact.
6. The team coordinator will facilitate the group scientists in rapport building and conversing with farmers.
7. The team coordinator will establish in advance contact with the official of line department at local level for giving wider publicity of the event.

8. On each VVP, the vehicle shall ply at 9:30 A.M. sharp from the office of Dean, FoA, Chatha.

9. The programme Coordinator in his capacity may change and replace the name of scientist as per the need and requirement of the farmers of village only with prior approval of Dean, FoA/FVSc.

10. The team coordinators will submit complete report of the visit along with the photographs to the Programme coordinator after a weeks’ time. It will be appreciable if the report is also sent through e-mail on skuast.daee@gmail.com

11. The scientists, who are not able to accompany the team for some unavoidable reason, will have to make necessary arrangement with the prior information to the Programme coordinator. This may kindly be followed strictly.
